## **Technical Specifications**

9 28VDC
typ. 0.31W
DMX: up to 128 devices / 512 channel: protocol: DMX512 max. 500m wire length
Loxone Link: connection with Miniserver
0.60W
-40 70°C / -40 158°F
max. 95% r. H. (non condensing
IP20
35.5x88x57mm / 1.4x3.46x2.24" (LxWxH)
This device is free of maintenance and may only be cleaned with a dry cloth.

#### **DMX** interface

Wire cross-section	0.14 0.5mm² / AWG26 20
Stripping length	7mm / 0.28"
Temperature resistance	-40 70 °C / -40 158°F

### About the product

The Loxone DMX Extension is a device for automatic control and management of home automation and similar non safety critical applications.

#### Installation & electrical connection

The installation of the devices has to be mounted on a DIN rail in an electrical distribution housing (Standard distribution) and may only be performed by qualified personnel.

Protection against electrical contact and fire protection must be provided in the final installation by the use of a standards compliant/approved housing.

To turn the unit on/off during installation and in case of failure, a separator (disconnecting device) must be present. These must be easily accessible and visible. If the unit is used in a non conform manner as specified by the manufacturer the product included safeguards will be impaired.

#### **Power Supply and Loxone Link**

Wire cross-section	0.25 0.8mm² / AWG23 18
Stripping length	5mm / 0.2"
Temperature resistance	-40 105°C / -40 221°F
